React Project Roadmap (100 Sessions + Income Project)

This PDF contains the structured roadmap of the React learning project: - 100 sessions - From beginner React to advanced project understanding - Final income-generating marketplace project How to use: Read one session per day and follow instructions.

Phase 1: Basics (1-20)

React basics: components, props, state, useEffect, routing, forms

Session 1

What is React, frontend vs backend, project structure

Session 2

Files and folders, components structure

Session 3

index.js and app bootstrap

Session 4

JSX explanation

Session 5

Components

Session 6

Props

Session 7

State

Session 8

useEffect

Session 9

Import/Export

Session 10

Events

Session 11

Conditionals

Session 12

Lists and map

Session 13

Forms

Session 14

Validation

Session 15

react-hook-form

Session 16

CSS/SCSS

Session 17

Bootstrap

Session 18

Images & icons

Session 19

SPA concept

Session 20

Review basics

Phase 2: Project Analysis (21-50)

Understanding real project architecture

Session 21

Project structure overview

Session 22

index.js deep dive

Session 23

App.js lifecycle and routing

Session 24

Router system

Session 25

PublicRoute

Session 26

PrivateRoute

Session 27

Auth routes

Session 28

Home routes

Session 29

Need routes

Session 30

Idea routes

Session 31

News routes

Session 32

Admin panel routes

Session 33

Layouts

Session 34

Navigation

Session 35

Redux intro

Session 36

Store structure

Session 37

redux-persist

Session 38

Auth slice

Session 39

Login flow

Session 40

Logout flow

Session 41

Axios

Session 42

API URLs

Session 43

Need API

Session 44

Need slice

Session 45

Need list page

Session 46

NeedItem component

Session 47

Add Need form

Session 48

File upload

Session 49

Need details

Session 50

Idea submission

Phase 3: Advanced (51-70)

Ideas, news, dashboard, admin, refactor

Session 51

Idea API

Session 52

Idea slice

Session 53

Idea page

Session 54

Add Idea

Session 55

News system

Session 56

MainPage

Session 57

Search

Session 58

Charts & reports

Session 59

Common slice

Session 60

Control panel slice

Session 61

Admin needs panel

Session 62

Admin ideas panel

Session 63

Admin news

Session 64

Roles

Session 65

CASL permissions

Session 66

EventBus

Session 67

Toasts & errors

Session 68

Bug fixing

Session 69

Refactoring

Session 70

Project cleanup

Phase 4: Income Project (71-100)

Marketplace build

Session 71

Income idea selection

Session 72

Business model

Session 73

Entities design

Session 74

Mapping old project to new

Session 75

Routes design

Session 76

Homepage marketplace

Session 77

Orders list

Session 78

Create order

Session 79

Order details

Session 80

Freelancer proposals

Session 81

Freelancer profile

Session 82

Client dashboard

Session 83

Freelancer dashboard

Session 84

Admin panel

Session 85

Roles system

Session 86

API design

Session 87

Redux orders

Session 88

Redux proposals

Session 89

Advanced form

Session 90

Order status flow

Session 91

Payments

Session 92

Blog/SEO

Session 93

SEO basics

Session 94

UI/UX

Session 95

Frontend security

Session 96

Setup project

Session 97

Install packages

Session 98

Run project

Session 99

Debugging

Session 100

Final summary
